One month away from our 42nd Annual Outdoor Fly-In. So please get ready for our meet by helping us plan and participate in a work day this month. As soon as we do, I will send an update to our members and advise the details of the work day. As the cooler weather seems to arrive, the weekends will soon allow us to finally get caught up on our flying skills. Some of our members have begun night flying and thanks to Bill Haygood's purchase and installation of some runway LED lighting, our field has taken on a distinct presence beginning at dark. Should you do any night time FPV flying this will become even more spectacular.

No update as of yet on our FRIA application. I did speak with our District VIII VP Lawrence Harville at the recent Richardson Swapmeet. Lawrence told me that in our district alone there have been over 300 applications submitted. The FAA is notifying the clubs regularly so we should be patient. With the holidays the process is slow.

Please remember you are always welcome to attend our monthly business meeting this week at Golden Corral Restaurant. Meeting starts at 7:00 come earlier to eat. Till next month Fly Safely and see you at the meeting.
