Thursday April 4th  
**Angelo RC Club Meeting**  
Golden Corral 7:00 PM

Gary Jones B-36

## RECORD TURNOUT FOR TINY 2024 !

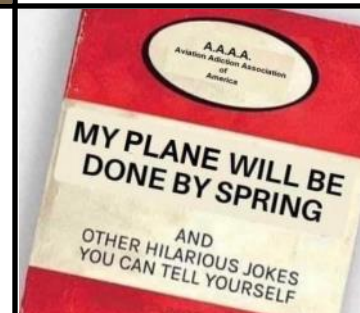

We had 81 registered pilots attend the 18th Annual TINY Indoor Fly-In. This is the best turnout we have had ever. Thank you everyone for making this meet the success it was. The Raffle was awesome. All of our prizes were donated by our members and participants. Bubba and Gary Jones built several planes for sale and Gary built a "Falconard" that was auctioned off. Many of our members have worked hard to get the meet set up as early as Thursday afternoon before showtime.

Saturday evening Annette Sellers organized a memorable pot luck dinner. Everyone agreed it was hands down one of the best dinners we have had at the TINY. Thank you so very much Annette and all of the husbands and wives that contributed to this dinner. Especially the desert !

Our monthly business meeting will be at Golden Corral On Thursday APRIL 4th at 7PM. Come earlier if you want to eat.

## Angelo RC Field News by Jimmy Gaona

### New Club Mailbox Installed at the Field!

Our official club address is now 4682 Arden Rd, San Angelo, TX 76901.

Use the address above to send mail to the club!

The new mailbox is locked to restrict access to the mail and is weatherproof. Having the mailbox at the field saves us \$240 per year in mailbox rental fees. Thanks to Mark Greer for ordering the mail-

### Angelo RC is now a FRIA Approved Site!

Thanks to Gary Jones for getting the application approved!

#### What is FRIA?

A FRIA is a defined geographic area where drones or UAS (Unmanned Aircraft Systems) can be flown without Remote ID equipment. Both the drone and the pilot must be located within the FRIA's boundaries throughout the operation. In addition, the pilot of the drone must be able to see it at all times throughout the duration of the flight.

Note: If a drone is equipped with Standard Remote ID, it may not be disabled or shut off while flying in a FRIA.

All aircraft over .55 lbs or 250 grams must have a FAA registration number attached to the frame, even if within the FRIA boundary.

A map of FRIA approved sites can be viewed at this link:

<https://faa.maps.arcgis.com/apps/webappviewer/index.html?id=9c2e4406710048e19806ebf6a06754ad>

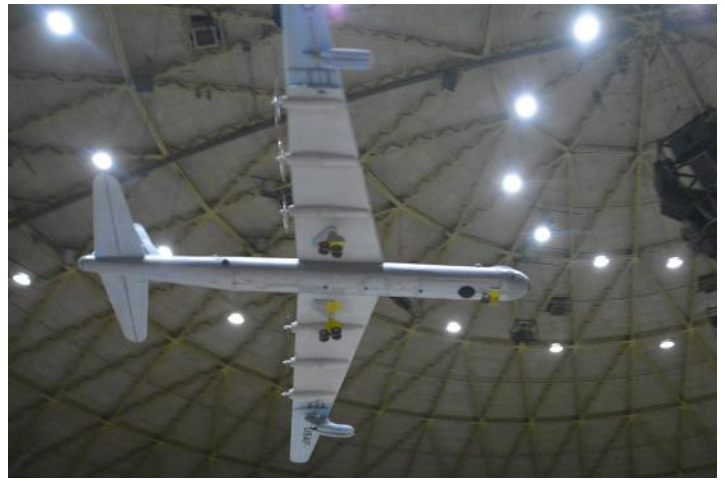

Our FRIA boundary is slightly different than our flying area. It's borders are South of the spillway, West and North of Mercedes and Arden roads and East of the runway.
