From the Editor:

So this month we actually have some news! First, When you arrive at the field you may find a new lock on our gate. Open it using the current combo. It may be easier to see the keys and a lot easier to find and use minus the numerous locks that the chain once held. This lock is electronic so if you open it, please close it to protect it. The lock has other features and those can be explained by Scott Bryan. Scott and Mark's contact info are on the gate if you need to contact them about the lock.

In other news I made a trip to the annual ARCS Fly-In in Abilene this past month. I saw some great planes and jets flying and visited with our fellow city's club members.

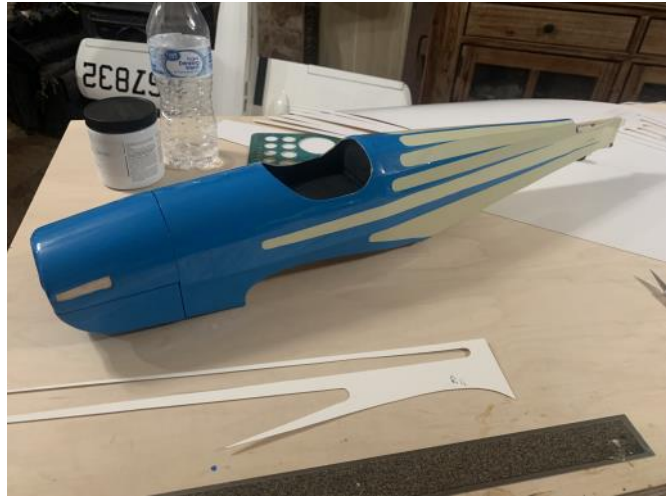

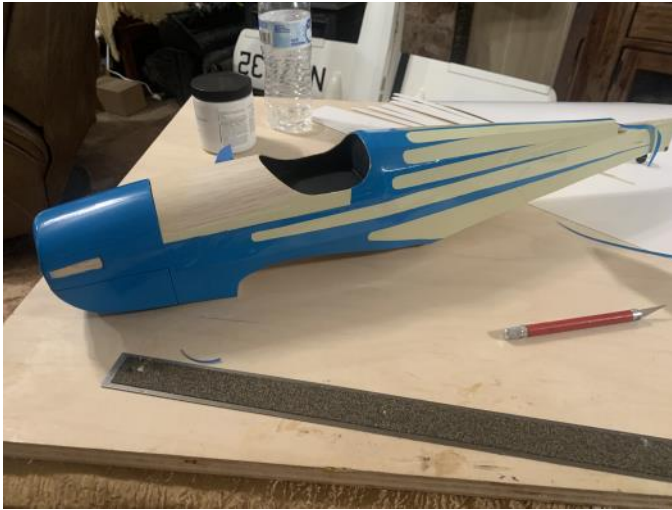

I have repaired our storm damaged weather station. Users will now see more accurate and updated data via the weblink and on the weather station display. Here is that weblink: <http://www.findu.com/cgi-bin/wxpage.cgi?KC5EZZ-2> or this one: <http://www.findu.com/cgi-bin/panel.cgi?call=KC5EZZ-2&units=english>

Our monthly business meeting will be this Thursday at Golden Corral at 7PM. Come earlier if you want to eat.

New Gate Lock Installed

A New Lock has been installed on our Gate. Because the lock is electronic, If you open it PLEASE CLOSE THE LOCK This will keep the dust out of the lock. The combination is the same for now. If you have any Questions about the lock, or its features, please contact Mark Greer or Scott Bryan.

How do I unlock/lock the Padlock?

To unlock the Padlock, you may use:

PIN code

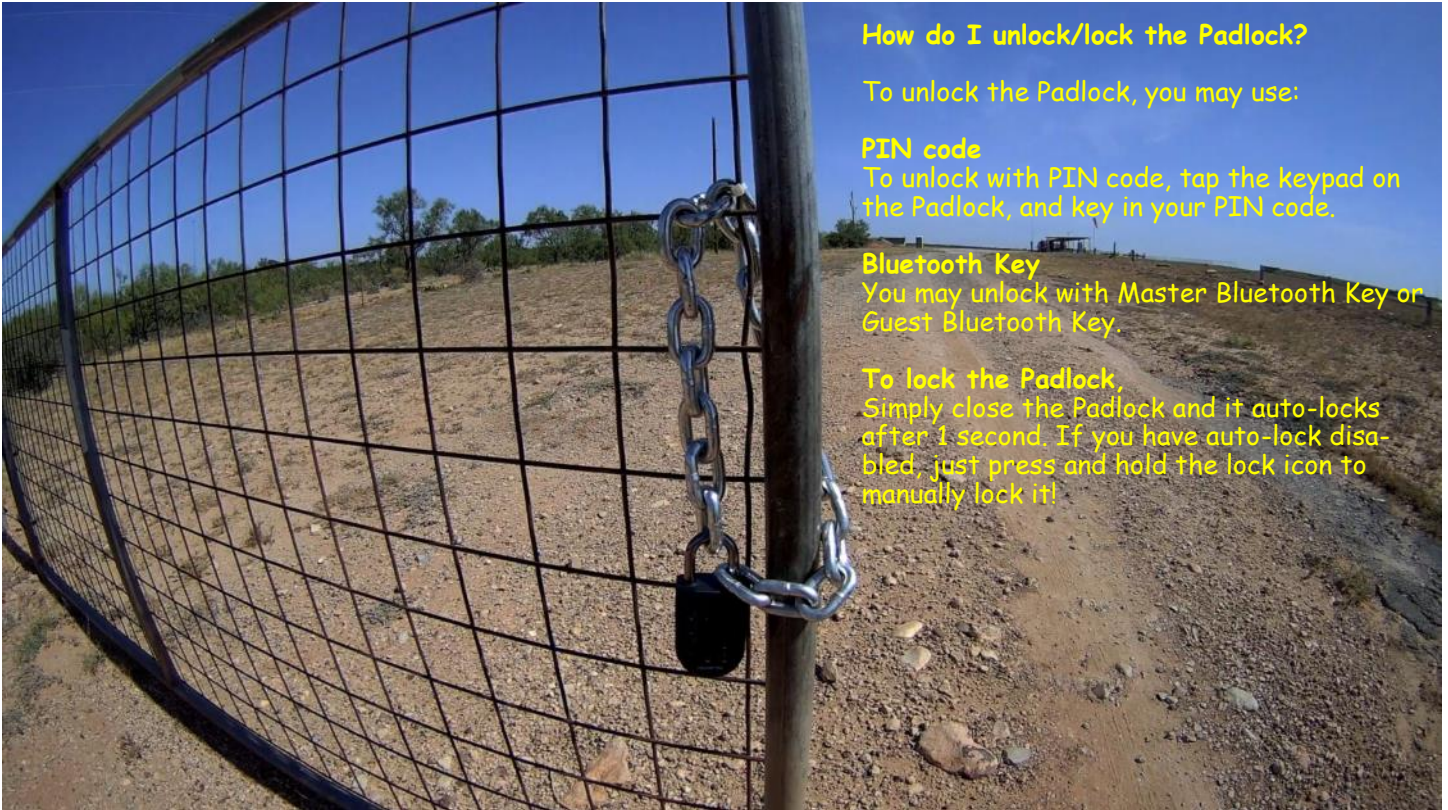

To unlock with PIN code, tap the keypad on the Padlock, and key in your PIN code.

Bluetooth Key

You may unlock with Master Bluetooth Key or Guest Bluetooth Key.

To lock the Padlock,

Simply close the Padlock and it auto-locks after 1 second. If you have auto-lock disabled, just press and hold the lock icon to manually lock it!
